The Yolo Democrat,
With a Weekly Supplement.
OFFICIAL PAPER OF YOLO COUNTY.
WOODLAND, CAL.
Thursday, Dec. 7th, 1878.

LUTTRELL'S MAJORITY.—The official majority of Congressman Luttrell in this district is eight hundred and fifty-nine.

NEW PROPOSITION.—Senator Morton has introduced a joint resolution proposing an amendment to the Constitution of the United States so as to allow the people to vote direct for President and Vice-President. No action has yet been taken upon it.

WARLIKE PREPARATIONS.—Russia is sending her mobilized regiments south. It is said that in the latter half of December half-a-million men will be on the Pruth, ready to cross. Military hospitals have been formed to the number of 84, capable of receiving 62,000 men. Everything in that direction looks warlike.

CONGRESS.—This body assembled on Monday last, the House organized by electing Hon. S. J. R. Hall as Speaker and the Senate retaining Mr. Ferry as President pro tem. The President's message was delivered to Congress on Tuesday and was immediately telegraphed to this coast. We give it in full in our weekly supplement.

MUSTARD.—We learn from the Alameda Enquirer that one day recently S. M. Shearer of Salinas, Monterey county, shipped to San Francisco 101,108 pounds, or 1,107 sacks, or over five car loads of mustard seed. For the season, from Monterey and Santa Cruz counties, thus far, at least 400,000 lbs of mustard seed have been shipped to San Francisco.

ASTOUNDING BUT TRUE.—In reply to an item in the Bee, stating that "since the first of July 1877 vessels loaded with ten and a half million dollars' worth of wheat have been shipped from San Francisco for Europe," the Colusa Sun says: "And yet this falls to pay California's Federal tax for a year," and adds: "Is there any comment necessary?" No, whatever ought to be necessary, further than to let the people know the fact and where it lies the remedy.

ONE-SIDED.—The Record-Union concludes that "on a fair vote New York is Republican," notwithstanding the fact that the votes polled show a majority of 32,100 for Tilden. This conclusion is arrived at because the city of New York gave the majority. Will the Record-Union apply the same figuring to Pennsylvania, which, but for the heavy Republican vote of Philadelphia would be a Democratic State? Of course there was neither fraud nor intimidation practiced there. Oh no!

MANIFEST INJUSTICE.—In the three carpet-bagger States the Boards of electors are all men of one party, and this in great measure accounts for the one-sided, partisan course pursued by them in canvassing the votes of those States. They count whatever suits their partisan preferences and throw out whatever they are dissatisfied with on account of party bias. There is such manifest injustice in this that it will doubtless be overhauled in all the States as soon as the "protection" of the Radical Administration at Washington. The minority party, in a Republican form of government is clearly entitled to minority representation on every Election Board.

HOW WOULD IT WORK?—Presuming that the infamous Returning Boards, backed up and sustained by Grant's army, will stop at nothing short of "declaring" the Hayes electors chosen; that this, with other complications, should develop the election of President upon the House of Representatives. In that case what would be done about the Vice President, who would have to be chosen by the Senate? The constitution provides that the President and Vice President shall be from different States. It so happens that Mr. Tilden and Mr. Wheeler are both from the State of New York. Would it not in such a case result in securing the two candidates elected by so large a majority in November, Tilden and Hendricks? May there not have been a little Providential arrangement in this important matter, after all?

A REDEMPTION FEATURE.—A New York Herald Washington dispatch of the 5th says: "The President positively refuses to order Gen. Roger to aid Gov. Chamberlain of South Carolina, in driving the members from Edgefield and Laurens from the Legislature, and has ordered Gen. Roger not to recognize any Legislature that did not have a quorum." As Grant is about to go out of office, and as he has already transcended the power conferred upon the President by the constitution and laws of the country, and in consequence impeachment is staring him in the face—may it not be that he is becoming alarmed, and that he has concluded to do justice during the remaining few days of his term? At any rate if he sticks firmly to the attitude intimated in the above dispatch, it will prove not only that something has occurred to induce him to "right about face," but that, under the circumstances, he is entitled to credit, although in carrying it out he will be doing nothing more than his plain duty.

Will the Radical Infamy be Consummated? 10,000 Majority All Round.

The probability is that Mr. Tilden's popular majority will aggregate near 400,000—call it 390,000. Supposing Colorado to be a State of the Union (though a Radical bastard), there are thirty-eight States. This gives an equalized Democratic majority of ten thousand for every State in the Union, not excepting even Rhode Island, Colorado and Nevada. It strikes us that in view of this overpowering fact, the Radicals had better move very cautiously—feel their way very carefully—before their contemplated villany, of counting Tilden out and Hayes in, is consummated. Democrats all over the country are watching coolly yet jealously, the doings of the Radicals in the contested States and in Washington. They hope the better judgment of men in control will prevail, and that the man who has been elected by the honest votes of the President will be duly inaugurated as President of the United States. Possibly before we go to press the Returning Boards in Florida, South Carolina and Louisiana will have rendered their decisions. If they shall be in accordance with the expressed will of the voters of these States no one will have a right to complain; but if otherwise, then the country will look to Congress to see that the will of the people is respected and our Republican form of Government maintained. And Congress can look with confidence to the Democracy to sustain its action in demanding and enforcing justice. Grant may resist, and he may call upon the army to sustain him; but even in this he may reckon without his host: The men who fought to preserve the Union will not be the ones to destroy it. At any rate the people will submit to no such tyranny. An immense majority of all parties believe that Mr. Tilden has been fairly elected by the people, and they desire to see him made President in the usual quiet way. They will submit to no false counting. They have not become educated by the lying telegraph and other infamous methods up to that point that they will sit idly down and have their throats cut, with their eyes wide open. The Democracy desire harmony and peaceful action throughout. But they believe with Jefferson, that "resistance to tyrants is obedience to God."

ELECTORS ENOUGH.—If Gov. Beveridge shall not let his partisan bias override his plain official duty under the law, remarks the Chicago Times, Mr. Tilden will get the one additional vote requisite to his election from Illinois. For it appears that the friends of Mr. Hayes in that State have chosen only twenty Electors, having divided their votes for the other Electors between Mr. James J. Castle of the Nineteenth District and Mr. Joseph J. Castles, of the Eighth District, neither of which gentlemen, as the ballot-box shows, has received a majority or even a plurality of votes cast. The highest candidate on the return of those voted for by the friends of Mr. Tilden is therefore elected, and is lawfully entitled to receive the official certificate of election. It is only by an arbitrary disregard of the election law that this certificate can be withheld from him, and it would be a still more gross violation of the law to issue the certificate to either Joseph J. Castles or James J. Castle, neither of which persons (and they certainly are two different men, both of whom were voted for intentionally,) received a plurality of votes.

A REPUBLICAN OPINION.—The following is from the Springfield Republican:

We find assurances every day that the best sentiment of the Republican party is to support the election law, and that the Republican party is in the sentiment, would rather the Louisiana Returning Board should elect Tilden than that they should again deserve such reprobation as was visited upon them by Messrs. Wheeler, Horner and Frye in their report of Feb. 23d, 1875. But the party leaders are silent in this crisis. The Republicans who went to New Orleans converted their first opposition to a high moral utterance into the mere elaboration of a law point. No Republican Senator or Congressman raises his voice against the general alarm and perplexity. Everything in party circles is white and discreet, at a time when all the moral forces of the country are needed on the side of honesty, fair play and peace. The attitude of the party leaders reminds us strongly of that old Assyrian boat which the prophet denounced: "By the word of my hand I have done it; I have removed the bonds of the people, and have robbed their treasures; my hand has found as a nest the riches of the people, and I have done it; I have moved the wing, or opened the mouth, or peeped."

FURTHER INVESTIGATION.—Among the first acts of Congress was the appointment of committees to investigate the South Carolina, Florida and Louisiana election matters, so as to enable Congress to act understandingly in supervising the count of the electoral votes for President and Vice-President. The Speaker announced as the Select Committee on Louisiana, Morrison, Jencks, McMahon, Lyndburn, Townsend of Pennsylvania, Danforth, Harburt of Illinois, and Joyce. On Florida, Thompson, Deboit, Welles, Hopkins, Garfield and Dummell. On South Carolina, Cochran was appointed, vice—, excused.

TOO FAST.—The table in our last issue showing the popular vote for President, made it appear that the Democrats had gained largely on the vote of 1872 in every State in the Union except Rhode Island, which was said to have gone 2,000 the other way. This proves to be incorrect. In 1872, in that State Grant's majority was 8,396. Hayes' majority is only 4,954. A Democratic gain on the vote of 1872 of 3,442.

SOUTH CAROLINA.—The Returning Board has counted out the Democratic Electors, Governor, Legislators and everything else that did not suit them. But as to the Legislators there are others there who have something to say about it. The Democrats are regularly organized, and four of the Republican members have left the corrupt organization with which they have been acting, and joined the Democrats. If Grant mind his own business and keeps the troops from kicking up a disturbance, matters will regulate themselves in that State, and the Democrats will come out ahead and install Hampton, who has been duly elected Governor of the State.

LOUISIANA "COUNTED" FOR MR. HAYES.—The telegraph brought the news yesterday that the Returning Board had declared the Hayes electors in Louisiana ahead, and also the Republican Legislators and State Officers. In the most glaring political fraud of modern times. A Democratic majority of 8,000 is whittled away to suit the necessities of the Republican party and a majority of several thousand "returned" for the Republicans. In any other country than this the frauds which would commit such an outrage on liberty would be hanged by the people they had defrauded, without notice.

SUITS IN BEHALF OF THE STATE.—Attorney-General Hamilton recently brought suit for the State against Robert Gardner ex-Surveyor-General and his bondsmen, to recover the sum of \$42,215.39, the amount the Land Commissioners reported Gardner delinquent. The Attorney-General has also commenced suit in the Sixth District Court against M. Miles and his bondsmen to recover the sum of \$293,784 for the failure of that individual to complete his contract for the erection of the Branch State Prison at Folsom.

TOO LATE FOR REGRETS.—The Record-Union the other day said: "In arming the negro with the franchise, the North doubled the political influence of the Southern whites, and put in their hands an agency by which they have already almost succeeded in neutralizing the results of the war of the rebellion." The Republicans now see their blunder in this behalf, but it is too late for regrets.

WHEAT.—The price here has not changed materially since last week. \$1.65 per cental is about the average price paid.

WOULD CEASE TO BE A VIRTUE.—Any palpable attempt to manipulate the returns of Louisiana or South Carolina or Florida, to commission fraudulent Electors to choose a President in defiance of a popular majority of nearly a half of a million, would appall the country more terribly than civil war itself. It would be the end of government, the end of law, the end of credit, the end of the liberty that has been our boast. The people have borne with the pollution of the ballot in Louisiana that overthrew an honestly chosen State Government by the bayonet. It was a grave crime against the peace, the honor and the prosperity of the nation, to perpetrate a sovereign Commonwealth in the dust; and both branches of Congress, although largely Radical, have placed their emphatic condemnation upon the wrong, by rejecting both Senators and Representatives who bore the broad seal of the usurping Government, and by compelling a revision of the returns to seat the fraudulently rejected legislators. It was submitted to because, however serious the wound to free government, it was a local sore that left the fountain of national authority unimpolluted, and should the same fraud be supposed to assert its omnipotence in the highest sanctuary of official power, forbearance would cease to be a virtue.—Phil. Times.

The Philadelphia Herald, independent Radical, is now convinced that cowardice in the Louisiana election has lost the day. The defeat of the ex-Speaker was "a political crime." He was preeminently the representative of the party.

KELLY, being business partners in the firm of LUCE BROTHERS & CO., on the first day of November, 1878, made, executed, delivered and filed in the County of Yolo, California, a promissory note, each for the sum of four hundred and fifty dollars, and drawing interest at the rate of one percent, per month, from date, one of which became due and payable four months, and the other one year from the date thereof. And whereas, in pursuance of an agreement made on the said day of November, 1875, between said Luce Brothers & Co. and the said Pacific Pneumatic Gas Company, there has been transferred and assigned to the said Pacific Pneumatic Gas Company, a corporation duly organized under the laws of the State of California, in trust as a security for the payment of said promissory notes; and whereas by said agreement I was authorized, empowered and directed, in case of a default in the payment of either of said promissory notes, to sell at public auction in the manner prescribed by said agreement, so many shares of said capital stock as should be necessary to pay the amount due thereon, on demand of the said Pacific Pneumatic Gas Company. Town and County Matters

A WORTHY OBJECT.—It is known that there are needy families in Woodland deserving the material sympathy of the community. The ladies of Woodland have taken steps to organize a society having for its object the relief of the worthy poor, who, by sickness and misfortune are unable to earn a support. For that purpose they have appointed a meeting to be held at the library to-morrow (Friday) evening. It is to be hoped that there will be a general attendance. A cordial invitation is extended to both ladies and gentlemen.

BODY FOUND.—November 24, the body of an unknown man was found floating in the Sacramento river near John Henry's ranch, about eight miles from Woodland. Deceased was about five feet nine inches in height, about thirty years of age; had black hair and no beard; wore a blue coat, checked pants and brown overalls; had on a woolen shirt and heavy common shoes. Coroner Krellenberg held an inquest on the body, when the above particulars were elicited from the testimony given and apparent facts.

CHOICE EASTERN CARVED SHOULDERS for 12 1/2 cents per pound, at J. H. Eaton & Sons.

NEW WINDMILL.—Mr. J. W. Peek, proprietor of the Woodland Water Works, finding that his present windmill has not sufficient power, is erecting a new one of greater capacity. The present one has a sixteen-foot wheel and a wind surface of 144 feet; the new mill will have a twenty-foot wheel with a wind surface of 256 feet, and it is expected will raise double the quantity of water into the distributing reservoir, which is 40 feet high. The object is to save steam.

FIFTY-MILE RACE AT WOODLAND. The celebrated rider W. V. Smith, will ride over the Woodland Course on Saturday next, Dec. 9th, fifty miles against time—two hours and ten minutes—for a purse of \$250. The rider will use ten California saddle horses, changing every mile. Pools on the race will be sold at Simmons' Saloon the evening before the race.

GASWORKS STOCK.—The stock offered for sale last week was not all taken and a re-postponement of the sale is advertised for the sixteenth. It should certainly be bought by our own people who are interested in the prosperity and growth of the town. Thus far we believe this has been the case.

MOUNTAIN APPLES.—A nice lot just received, at J. H. Eaton & Sons.

COAL GAS.—Workmen are engaged in making the necessary changes at the Gas Works for making gas from coal. The gas furnished at present gives a very good light, but it is found to be damaging to the pipes, meters, etc. There is no other gas equal in every respect to that made from coal.

A SUCCESS.—The social at Washington Hall last Saturday evening gotten up by the ladies of the Christian Church for the benefit of the Sunday School fund, was very generally attended and yielded quite a handsome sum besides being highly enjoyed by the numerous participants.

BASE BALL.—The match game played by the Silver Star and Pacific Clubs on Thanksgiving Day was won by the former, the score standing 16 to 8. On Saturday next another game will come off, to be played by the same clubs, for a purse of \$50.

HIGHEST PRICES PAID FOR POULTRY AND EGGS, at J. H. Eaton & Sons.

HOLIDAY GOODS.—Mr. L. Macfiebert has made special arrangements for the holidays this year in laying in an elegant stock of goods suited for presents. In addition to his usual large, rich, and varied stock of jewelry and fancy articles.

SUDDEN ILLNESS.—A. C. Kean, our worthy and respected County Treasurer, was taken suddenly very ill on Monday evening, and though his condition is somewhat improved he is quite low. We trust he will soon recover.

GETTING DRY.—Farmers are beginning to get anxious for more rain. Thus far we have had 3.74, or in round numbers 4 inches. Nothing is suffering, but in some localities the surface is getting too hard for plowing.

LIBRARY BENEFIT.—The ladies of the Woodland Library Association are preparing to give an entertainment for the benefit of their protégé a short time before Christmas. Particulars in our next issue.

FRESH CANDY.—by the pound 25 cents, at J. H. Eaton & Sons.

CHROMOS.—Reed & Simpson have a very large lot of fine chromos which must be closed out to make room for others. They will be sold very low, and would make elegant presents for the holidays.

BALLS.—The ball at Winters on Thanksgiving night was a decided success. About 70 couples were present. The one at Knights Landing was attended by some 45 couples.

BON-BON PARTY.—A party of this character will be given at Washington Hall on Christmas night, Dec. 25th, for which posters will be out in a day or two.

CHRISTMAS BALL.—J. G. Crawford will give a grand ball at the Regent Hall, Daviessville, on Christmas night, to which all are invited.

Book Notices.

HEALTH AT HOME, OR HALL'S FAMILY DOCTOR; for the use of families, showing how to preserve health, prolong life, cure diseases, understand the physical conditions of maturity and the proper management of infants, and discussing the physical well-being of man, with a very large collection of the latest and most valuable medical prescriptions: By W. Hall, A. M., M. D., editor of "Hall's Journal of Health," "Health by Good Living," "Sleep," "Bronchitis," etc.

The above work is extremely valuable because of its great utility in imparting to mankind general rules for securing, maintaining and preserving good health. Dr. Hall's reputation is world-wide as an authority on this important subject and his works are sought and read with avidity. This work describes the symptoms and characteristics also the most simple and effective remedies as laid down by such eminent physicians as Abernethy, Barker, Flint, Post, Draper, Clark and others.

The title of an insect, a midnight sickness, an accidental poisoning, have many times proved fatal to the querist. The physician is called in; when on the kitchen hearth, in the ice-box, the store-room, the dairy, the hen's nest, the big road, and the spring branch, there are remedies more available for cure than the surgeon's knife or the physician's skill; more powerful for good than any drug ever taken from the shelves of the apothecary; but no one knew it, and the patient died. A main object of this work is to give such information as will enable the most unlearned reader to avail himself promptly of those means for saving health and life which Nature and Providence have thrown broad-cast around him in wonderful profusion.

GENERAL PRINCIPLES FOR THE CURE OF DISEASE.

I. Why one remedy may cure many ailments apparently of a radically opposite nature.

II. Baths and bathing; the philosophy of their action, their proper employment, and their extensive efficiency.

III. The accidents of life and their home treatment.

IV. The prevention of sickness and suffering.

V. The hair; its nature, growth, cultivation and preservation.

VI. Exercise; its value as a means of preventing sickness and curing disease, with the best modes of taking it to the highest advantage.

VII. Maternity, and how to secure a safe and easy delivery of children, how they shall be nursed, without deformity, and of a high moral character, by specified modes of life preceding and during gestation.

VIII. Should the sickly marry?

IX. Should the sickly marry?

X. The healthful measures of marital indulgence.

XI. Hereditary Influence.

XII. Allotment of professions; the largest in number, the latest and most valuable heretofore published in any book for popular reading.

This work will be printed on beautiful white paper, from new electrotype plates. It will be elegantly illustrated, and most substantially bound in one large octavo volume of 868 pages. A. Roman & Co., San Francisco, Agents for Pacific Coast; James Johnston sole agent for Yolo County.

MARK TWAIN'S SKETCHES, NEW AND OLD.—Now first published in complete form. That incomparable humorist, Mark Twain, has laid before the public another volume for its acceptance and delectation. This volume is made up from the very best of all his previous works, and may be said to contain the gist and real substance of them all. It contains the story of the famous "Jumping Frog," as originally written, with additions and exceedingly interesting variations; his "Essays on Political Economy," his "Cannibals," etc., etc., are retained. New sketches occupy large space in the volume, which are "Faintish" in every particular. The illustrations are artistic and profuse, assisting to carry out the humor aimed at in the various sketches. The work is printed on the finest tinted paper and elegantly bound in blue, with fancy designs in black and pure gold, making it exceedingly attractive. The author is extensively patronized by men and women of a highly cultivated class, embracing clergymen, lawyers, scholars, students, merchants, mechanics, farmers and others, all of whom read his works with no disguised pleasure. The present volume will contain 300 to 400 quarto pages, with about 150 illustrations, and will be sold only by subscription. Published by A. Roman & Co., San Francisco, who have conferred the exclusive agency for Yolo County upon James Johnston, who will call upon the people at their homes, exhibit the work and receive subscriptions therefor.

THE COMPLETE LIFE OF GENERAL GEORGE A. CUSTER, embracing his brilliant military life and his wonderful exploits in Indian warfare. This work is now being offered to the public, the publishers having just issued it from the press. Gen. Custer's life was a perfect romance. His name recalls nothing but brilliant deeds of daring and romantic courage. He was noted as being the most splendid cavalry officer of his time, and the stories of his charges seem more like the wondrous pictures of romance than reality. He is said to have united the magnificent daring of Murat with the splendid bravery of Ney, and was always foremost on the path of glory and honor. His magnificent bravery was shown in his career with the army of the Potomac. He was admitted to be our greatest Indian fighter, and many hold to the opinion that his life was sacrificed by being required to do what he had not sufficient force, nor of the right kind, to enable him to carry out to a successful issue; and in the

attempt he died rather than fail and live. The book, as well as being a most charming personal narrative, embraces also a history of the entire cavalry corps of the army of the Potomac, containing an account of every battle fought. It is written by Capt. Whitaker, one of the most brilliant professional writers of the day, who was also a cavalry officer, and is illustrated with a beautiful steel plate engraving of General Custer, likenesses of his three brothers and an nephew, "Rain-in-the-Face," the Indian who killed Custer, and numerous full-page engravings; also maps illustrating the great battles which he fought, adding interest and value to the volume. General Custer lived a heroic life and died a hero's death.

"For can a man die better than facing fearful odds, For the stripes and on the shield?"

This work is also published by A. Roman & Co., San Francisco, who have entrusted the canvass of this county exclusively to James Johnston, who will receive subscriptions for the same.

DOLLAR STORE.—Do not fail to read Ackerman's advertisement of his Sacramento Dollar Store. Mr. A. has been in this line of business during several years and knows every crook and turn of it. Having frequently visited in a business way, the house referred to, we can say for it our own knowledge that it is the most complete establishment of the kind in the State. Its variety of goods appears to be endless, and as choice as it is extensive. Anyone visiting the city will be well paid for taking a look through the establishment, 189 J Street.

NEW PATENTS.—Through Dewey & Co., Patent Agents San Francisco, we receive the following list of U. S. patents, granted to Pacific Coast inventors, viz: Henry C. Hurd and George Simpson, Redwood City, Cal., flour bolter; Harrison H. Hendrix, San José, Cal., copy holders; Allen D. Miller, Sacramento, Cal., baling presses; William H. Sterling, S. F., processes and apparatus for reducing ores; Frank Walker, Santa Barbara, Cal., coupon nippers and ticket punches; Charles W. Weston, S. F., fruit boxes; Charles Curtis Allen, S. F., spring belts; A. S. Hovey, S. F., roller paper rule stamp; Frederick Oppenheim, S. F., vehicle seats.

DEMORSE'S ILLUSTRATED MONTHLY MAGAZINE.—The prospectus of this first-class ladies' magazine for 1877 will be found in our columns. To bring the magazine and our own paper within the reach of all, we offer to furnish both for the coming year for the low price of five dollars in advance, post-paid. The games of those who desire to accept this liberal offer must be handed in with the coin by the 20th of December.

THE PNEUMOLOGICAL JOURNAL for December is at hand, published by S. R. Wells & Co., 737 Broadway, New York at \$3 a year. Its contents are not only interesting but useful. Such a work should be in every household.

Mrs. OGDEN desires to inform the ladies of Woodland and vicinity that she is prepared to teach cutting by chart. Also, that she has the agency of a Sacramento sewing and dyeing establishment.

PREACHING.—Dr. Robert Peck, the converted Jew, will preach next Sunday, morning and evening, at the Union Chapel, 23 miles west of Woodland. His subject in the evening will be "The Jews."

NEW TOWN.—The Atlantic advertiser has a new town site eleven miles north of Winters, on the projected line of the Vau Valley R. R. extension, to be called Madison.

THE HORSE RACE between Mollie, Dollie and Creeper, was won by Mollie.

Nothing but the Truth. It is nothing but the truth to call Hostetter's Stomach Bitters one of the most comprehensive remedies ever in existence. Disease in so many cruel guises has yielded to its curative action, its combined invigorating and alternative properties, its promptness, its powerful agent for the promotion or restoration of health, that it may well be doubted whether it does not bear away the palm from all competitors of its class, both as a health and a safeguard. Through the agencies of restored digestion, a regular habit of body and complete secretion, it overcomes the various maladies which the interruption of these functions produces. Dyspepsia, liver complaint, urinary affections, nervous debility, insomnia, and maladies of a yet more serious nature, are eradicated by its systematic use. It restores the appetite, promotes sound, refreshing sleep, and neutralizes those atmospheric causes which originate chills and fever and other malarial diseases. Elderly persons find in this compound a reliable remedy for the numerous bodily ills to which age is peculiarly subject, but a genuine tonic and support. Females in delicate health use it as a means of overcoming the difficulties and irregularities which afflict the gentler sex, and nervous or bilious subjects derive the promptest and most complete relief from it. There is, in short, no class of ailments to which it is not beneficial by the Bitters. It removes the cause, and is one of the most reliable remedies in existence for overcoming the effects of indigestion, and affording protection against the consequences of exposure.

TO LOVERS OF GAME.—I wish to notify the public that I will buy and sell all kinds of game during the season, and shall try to give satisfaction to both sellers and buyers. Call at the grocery store. J. H. Eaton & Sons.

A Fragrant Breath and Pearly Teeth are easily obtained by cleansing your teeth daily with that justly popular dentifrice, SOZODONT. Composed of rare antiseptic herbs, it imparts whiteness to the teeth, a delicious aroma to the breath, and preserves them from rotting to and the teeth. Acidity of the stomach will destroy the strongest teeth unless its effects are counteracted with SOZODONT, and this pure tooth-wash insures the clean surface by removing every impurity that adheres to them. A Case of Thirty Years Standing. EAST AFRICA, N. Y., May 22d, 1872. Messrs. W. F. POWELL & SONS, Gentlemen—I was troubled with Dyspepsia for thirty years, and tried several medicines advertised for the cure of this distressing complaint without deriving any benefit from them. About a year ago I commenced taking the FERTIVIAN SYRUP, and after using altogether twelve bottles I find myself entirely cured. I consider my case one of the worst I ever heard of, and I take great pleasure in recommending the FERTIVIAN SYRUP to all Dyspeptics, believing that it will be sure to cure them.

Yours respectfully, J. T. BOWEN. Sold by all druggists.

THE WHITE HOUSE!

WHO BRINGS THE PRICES DOWN!

—IT IS THE—

<

The Death of Grant.

It dies like a snake, one joint at a time,
Exuding its venom with a violent cry,
And compassing, even in dying, a crime,
Which purges its deadly record of
its life.

It dies like a snake, the accursed foe
Of the race which it has so long preyed on,
And it crawls in the dust to escape from the
view
Which the people, indignant, have dealt
at its head.

The mourners are gathered, with Grant as
their chief,
And Robert, Babcock, and Belknap, whose
eyes
Are red with a tangible, palpable grief
At the loss of the Treasury base of supplies,
No streets to be measured, no whiskey to
drink.

No snuffbox posts to be purchased or sold,
No credit to lend in the house of Jay Cooke,
No Secors, no Catells, no ill-gotten gold!

And up from the South come a demon-like
horde,
Who have picked the white bones of a
bankrupt State,
And scattered worse curses than famine or
sword.

On the heads of unfortunate children of
fate,
And these are the vultures who sought to
prey.

The red rule of ruin, the doom of despair,
The epoch of hatred, the night-time of wrong,
By a crime which Treason itself appears
fair.

Their destiny ends and their weeping is vain,
For Grant lies dead, and his poison still stings,
Corrupting the nation, shall never again
Disgrace the page in the annals of time.
It dies like a snake, degraded, accursed,
And crushed beneath the heel of a free
people's wrath.

From the throats of the millions let jubilee
be sung,
For the dead, the foul monster in Liberty's
path.

General News Items.

In Illinois the Republicans lack two
votes of a majority on joint ballot in
the Legislature.

The proclamation of the Governor of
North Carolina gives a Tilden majority
in that State of 16,178.

The Springfield (Mass.) Republican
denounces in vigorous terms the at-
tempts making to count Hayes in.

The Democratic majority in the next
House of Representatives will not be
less than fifteen. It may reach twenty.

It is said that the small Russian
squadron in the Mediterranean Sea is
to be sent to America for special pen-
dential service.

Charles Francis Adams says that
the counting in of Hayes would be
the most monstrous political crime
conceived in any country.

The N. Y. Tribune's New Orleans
correspondent says: "The Republicans
can here do not deny that a majority
of the votes actually polled are against
them."

The over-production of grapes this
year has stimulated the manufacture
of raisins, the shipments from San
Francisco rising from 20,000 boxes, last
year, to 60,000.

Grant has introduced a new method
of avoiding trouble from his political
opponents. It is to call in the army
and navy to help him defend himself
when he is in a tight place. How do
the people like the new idea?

Seven European steamers sailed in
one day last week from New York and
took 15,000 barrels of apples, 100,000
bushels of grain, 20,000 boxes of cheese,
and large quantities of other Ameri-
can produce; also 700 passengers.

The President on the 13th signed the
pardon of William O. A. Vandy, confined
in the Missouri State Penitentiary for
complicity in the whiskey frauds. It
was intimated that a pardon for McKee
would likewise be issued in a few days.

The Raleigh News advertises an ex-
tensive lot of carpet-bags for sale
cheap. "We are not going to realize
the auctioneer's commission. The
people have no further use for such
shabby, dilapidated, ill-savored and
unservicable property."

There is great excitement in Grove
City, Ky., over the hanging of a col-
ored man who voted the Democratic
ticket by negroes. He was taken from
his house, despite the pleadings of his
wife and children, and hung to a tree.
The perpetrators are known, and will
probably be lynched.

It was President Grant who made
Kellough Governor of Louisiana; it was
Kellough who appointed the Louisiana
Returning Board, and it is the Louisi-
ana Returning Board who will ap-
point a President of the United
States—all this without the voice
of the people having anything to do
with the process at any stage of it.

That terrible disease, cancer, is
growing more fatal in England, 1876
it carried off more than 11,000 per-
sons, more than two-thirds of whom
were women. Cancer spares the
young. Most of the deaths occur in
ages above forty-five, and it is notice-
able in the years' returns that under
that age more males than females died.

The Democratic House of Representa-
tives is now the protector of the
people, and that House will insist upon
the inauguration of the President who
has been rightfully elected. If it
should prove to be Gov. Hayes, well
and good; but not, but the whole
power of the Federal Government can
prevent the inauguration of Samuel J.
Tilden.

The Southern trade is paralyzed.
Nothing else could be expected from
the present state of the political situation.
The South feels discouraged and an-
xious regarding the future, over which
it depends the whole of its welfare.
Not only the Southern trade, but
business of all sorts is nerveless.
Such is the result of the present polit-
ical situation.

A pack of wolves, estimated at one
hundred head, recently made an on-
slaught on a huge drove of sheep in
the mountains near Eureka and five
hundred were maimed or killed. Their
hideous yells alarmed a party of
hunters in the neighborhood, who, through
darkness, were powerless in the matter.
This wild herd must have come a
hundred miles in quest of their prey.

Sir Richard Temple, Lieutenant-
Governor of the Presidency of Bengal,
is an official report on the recent cy-
clone, which was so fearfully destruc-
tive of human life, says: "Three storm
waves in rapid succession swept over
an area of 3,000 square miles. Accounts
from the Bombay Presidency relative
to the famine are gloomier. This year's
rainfall in the district is not one-third
of the average fall. Prospects in the
Presidency of Madras also continue
unfavorable."

J. Madison Wells is President of the
Returning Board of Louisiana. Of him
Paul Sheridan said in an official report
in 1865: "I have noticed him since,
and his conduct has been as sinuous as
the mark left in the dust by the move-
ment of a snake. I say again that he
is dishonest." The St. Louis Times
states that one of his enterprises in-
volves a claim, now pending before the
Southern Claims Commission for \$450,000.
It has been shown to be fraudulent
from top to bottom.

Centaur Liniments!

The Quickest, Surest and Cheapest Remedies.

Physicians recommend, and Farriers de-
clare that no such remedies have ever before
been in use. Words are cheap, but the prop-
riety of these articles will present trial
bottles to medical men, gratis, and will
guarantee more rapid and satisfactory results
than have ever before been obtained.

The Centaur Liniment, White
Wrappers, will cure Rheumatism, Neural-
gia, Lumbago, Sciatica, Caked Breasts, Sore
Nipples, Frosted Feet, Chilblains, Swellings,
Sprains, and any ordinary

**It will extract the poison of bites and stings,
and heal burns or scalds without a scar.
Lock-jaw, Palsy, Weak Back, Caked Breasts,
Eczema, Toothache, Itch and Cuts, and
Eruptions readily yield to its treatment.**

Henry Black, of Ada, Hardin Co., Ohio, says:
"My wife has had rheumatism for five years
—no rest, no sleep—could scarcely walk
across the floor. She is now completely
cured by the use of Centaur Liniment. We
all feel thankful to you, and recommend your
wonderful medicine to all our friends."

James Hurd, of Zanesville, O., says: "The
Centaur Liniment cured my neuritis."

Alfred Tush, of Newark, writes: "Send me
one dozen bottles by express. The Liniment
has saved my leg. I want to distribute it, etc."

The sale of this Liniment is increasing
rapidly.

The Centaur Liniment, Yellow
Wrappers, is for the tough skin, flesh and
muscles of

Horses, Mules and Animals.
We have never yet seen a case of Spavin,
Sweeney, Ring-bones, Wind-galls, Scratches or
Polio, which this Liniment would not
speedily benefit, and we never saw but a few
cases which it would not cure. It will cure
when anything can. It is fully to spend \$20
for a Farrier, when one dollar's worth of
Centaur Liniment will do better. The follow-
ing is a sample of the testimony produced:

"Some time ago I was shipping horses to
St. Louis. I got one badly crippled in the car.
With great difficulty I got him to the stable,
on Fourth Avenue. The stable-keeper gave
me a bottle of your Centaur Liniment, which
I used with success that in two days the
horse was active and nearly well. I have
been a veterinary surgeon for thirty years,
but your Liniment beats anything I ever
used."

A. J. McCarty, Veterinary Surgeon.

For a postage stamp we will mail a Centaur
Almanac, containing hundreds of certificates,
from every State in the Union. These Lin-
iments are now sold by all dealers in the
country.

Castoria is the result of 20 years' ex-
periments, by Dr. Samuel Pitcher, of Massachu-
setts, in a vegetable preparation, which is ef-
fective as Castor Oil, but perfectly pleasant
to the taste. It can be taken by the youngest
infant, and neither gags nor gripes. Dr. A. J.
Green, of Roxbury, Ind., says of it:

"I have used the Castoria for some time,
and speak highly of its merits. It will, I think,
do away entirely with the use of Castor Oil, and
be a safe and pleasant substitute. It is pleasant
and harmless, and is wonderfully effective
as an aperient and laxative. It is the very
thing."

The Castoria destroys worms, regulates
the stomach, cures Wind Colic, and permits of
natural healthy sleep. It is very efficacious
in Croup, and for Teething Children. Honey
is not pleasant to the taste, and Castor Oil
is not so certain in its action. It costs but 25
cents, in large bottles.
